

# Iso-Drive® Energy Unit

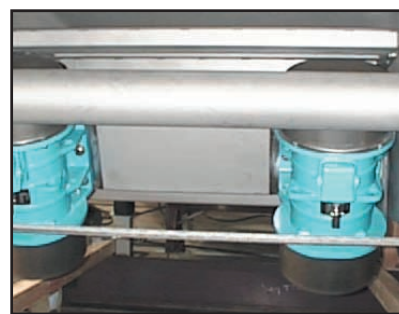

*Iso-Flo®'s frame-mounted Iso-Drive® energy unit distributes even, torque-free vibratory forces solely to the conveyor bed without being subject to vibratory forces itself.*

*Compact, quiet and easy to set up, Iso-Drive® operates on a large or small gearbox configuration with a stainless steel cast base.*

## Vibratory Electric Motors

*In addition to Iso-Drive® powered equipment, Key manufactures vibratory systems driven by paired electric vibratory motors operating on Iso-Flo® principles. These time-proven motors are available in many sizes and configurations.*

### Common Product Applications

- Apples—sliced, diced
- Apricots—halves, diced
- Asparagus
- Beans—broad, dry, green, wax, Lima, soy
- Bean sprouts
- Beets
- Berries, cranberries
- Broccoli
- Brussels sprouts
- Candy, confections
- Carrots
- Cauliflower
- Celery
- Cereal
- Cheese
- Chemicals
- Cherries
- Citrus—whole
- Coffee beans
- Corn
- Cucumbers
- Figs
- French fry strips
- Garlic
- Glass (cullet)
- Grain
- Grapes
- Hops
- Ingredients
- Legumes
- Lettuce—chopped, diced, shredded, mixed
- Meat, poultry
- Minerals
- Mushrooms
- Nuts
- Okra
- Olives
- Onions, leeks
- Parsley
- Pasta
- Peaches
- Pears
- Peas—green, sugar snap
- Peppers
- Pet food
- Pharmaceuticals
- Pickles
- Pimientos
- Pineapple—chunk, rings, slices
- Plastics
- Potato—chips, crisps
- Potatoes—whole, diced, sliced, flaked, wedged
- Pretzels
- Prunes
- Pumpkin
- Quiche
- Radishes
- Raisins
- Rice
- Rocks and gems
- Salt
- Sand
- Seafood
- Seaweed
- Seeds
- Snacks
- Spinach
- Squash
- Strawberries
- Tea
- Tobacco
- Tomatoes
- Waffles
- Yams—chunks, diced
