

KeyWare®

[KeyWare® application-specific user interface](#) is individualized for the consistent sorting capabilities your operation requires.

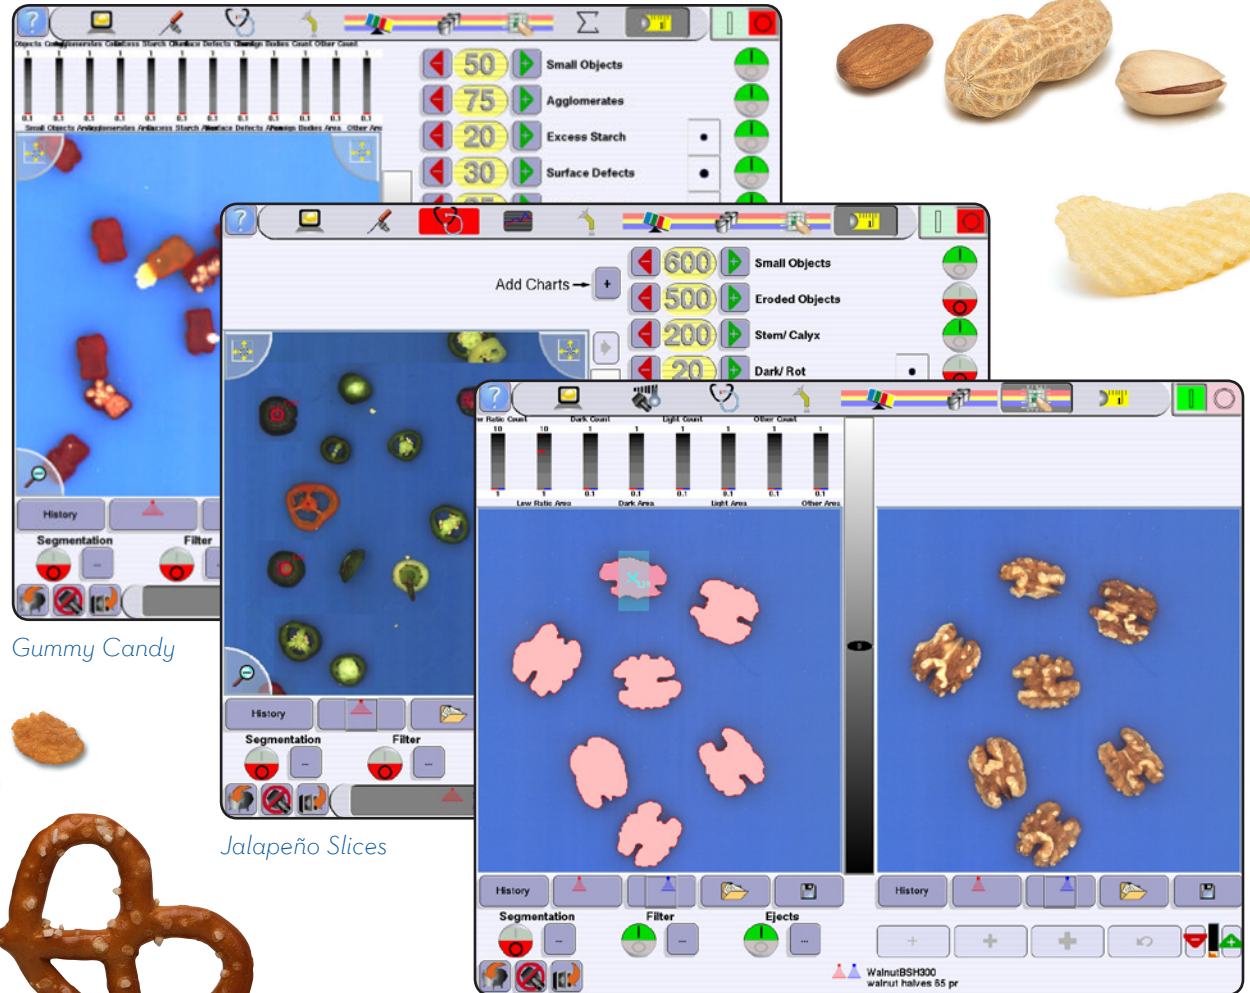

Custom Tailored Sorting

- **User-friendly**—Easy to learn; defects categorized in familiar terms, such as “mold,” “scab” and “stem”.
- **Adaptable**—Adjust shape sorting algorithms to fit your product requirements.
- **Flexible**—Each sensor can have its own KeyWare® and/or setup.
- **Easily changeable**—Immediate touch screen adjustment to another product.
- **Customized**—KeyWare® is designed for your specific applications prior to installation.
