

RemoteMD™

in Three Easy Steps

Step 1

Connect the sorter to the plant network

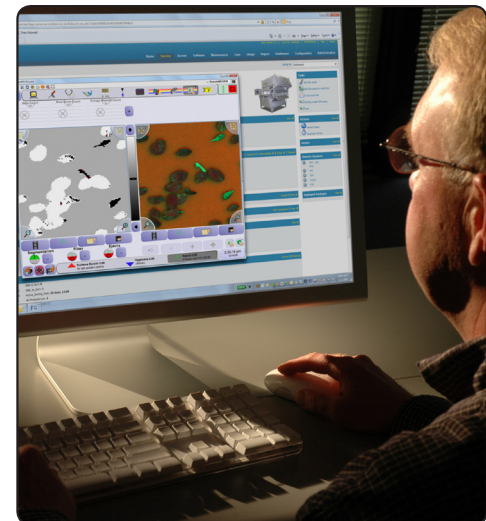

Step 2

PROliance service technician will **install** and **configure** the agent

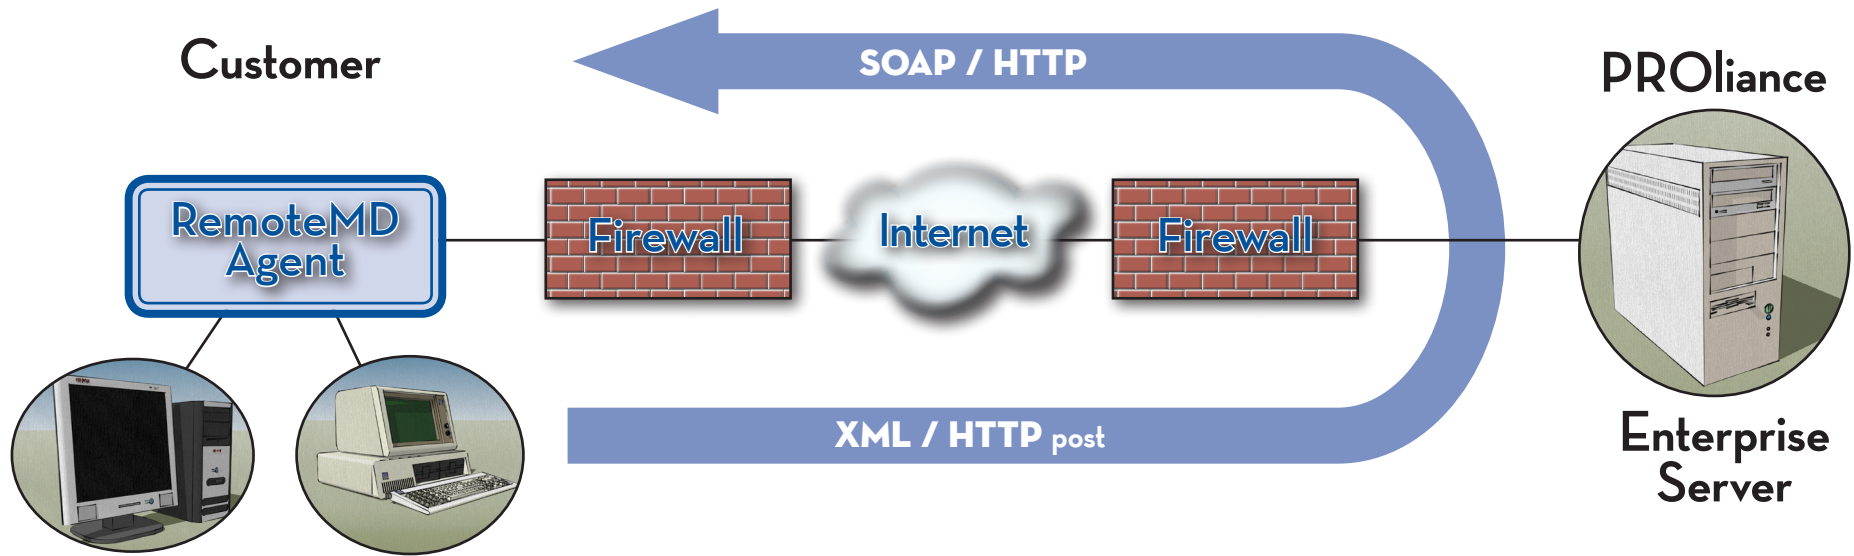

Step 3

Go to PROliance RemoteMD portal to **see** the information on your sorter

RemoteMD™ Security

No changes to network security infrastructure

- Public IP address not required
- Agent initiates all communication
- XML/SOAP over HTTP/HTTPS
- Standard ports 80/443
- Support for proxy servers
- Support for DHC and NAT
- Agent communicates to only a single Enterprise Server
- Agent only responds to Enterprise messages
- SSL Encryption
- VeriSign Security Certified solution
